Our Eureka Sustainability Commitment

Environmental compatibility, ethics and social responsibility are core company principles. As certified to ISO14001 we see ourselves as a responsible and socially committed company.

The world produces more than 400 million tons of plastic every year, and only 9% is recycled. People are demanding change, and we at Eureka Physiocare have taken notice.

How is Eureka Physiocare helping the environment?

- Reduction in courier miles by combining deliveries
- Utilising electric vehicles for deliveries
- We recycle 90% of packaging received from suppliers
- All catalogues printed on FSC accredited paper and are fully recyclable
- Invoices and statements are sent electronically
- Using recyclable packaging materials
- Development to improve sustainability of products
- Paperless editing for marketing team
